

Our ideal solutions integrate all known elements such as product descriptions, product visuals, live video demos, shopping carts, payment gateways, merchant authorization and transaction processing. The entire purpose of our web stores concept is to sell.

Our company delivers the most excellent webstore solutions for your online business. Our webstore experts make it most convenient for our customers from the signing in stage to delivering the right product for your company. With just one click on our order forms will get you rolling in the e commerce business in hours.

Our payment pattern for ordering is very simple. From domain names to web hosting on the best of servers based in Seattle, to integrating your online products with payment gateway is just few clicks away. We not only establish your e commerce webstores but as well provide you the best of our know how on running a successful e commerce online. We establish your basic store in 36 hours. Our solutions are well known to our national and international clients. Our company based in India provides ethical business solutions and healthy business terms.

Payment Terms

Our payment terms are the most simplest ones you would have ever encountered on the entire WWW. Our pattern is simple, we charge you only 10% of the total amount to build you an entire sample of your webstore with your basic 10 - 15 products for test and approvals. Once finalized we upload the webstore in minutes to your hosting locations.

We as well provide you training manuals of the system and offer you a 100% support within hours for the first 3 months. On the expiration of our maintenance contract (3 Months) you may renew our maintenance subscription for not more than \$30 for support per month.
